

# *Tiger Pride Club*

Highland Park Elementary  
Maury County Schools

Highland Park Elementary is continuously working to improve their school environment and culture. Recently, a new club was developed for 4th grade students called the Tiger Pride Club. Meetings are held every other week and students brainstorm ideas and create plans to promote kindness throughout their school. At one meeting students researched quotes and created posters to hang around the school to promote positive thinking and inspire others. Another project Tiger Pride Club took on was creating welcome signs that were held by students as they greeted fellow Tigers during arrival. Tiger Pride Club is a great example of actively involving students in your Tier I system.
